

Welcome & Conventions

Welcome! This cheat sheet describes common mouse and keyboard shortcuts for Tracktion Waveform. Please note that these shortcuts are written for macOS, using the **command (cmd)** key where indicated. On a Windows system, you'd use your **control (ctrl)** key. I hope you find this guide useful. Feel free to provide feedback. Enjoy!

<required> <>'s indicate some sort of key combination is required. eg:
<number> = type any numbers

[optional] []'s indicate something is optional

bold bold indicates a keyboard key

+ plus indicates holding a combination of keys / mouse buttons / performing movements

| pipe indicates OR. eg: **a | b** = press key a or key b

Keyboard Navigation

home Move Cursor to Start of Song

w Move Cursor to Start of Clip

end Move Cursor to End of Clip or End of Song

] Move Cursor to Next Marker
