

Box Model & Pseudo Class (Chapter 02 - 03)

Text Align	text-align : left, right, center, or justify
Box Model	padding: 10px 5px 0px 5px;
Pseudo Classes	a: class (link, visited, active, hover, focus)
Pseudo Elements	h1::element (first-letter, first-line, before, after) {content: " — NEW";}

List Style (Chapter 02 - 04)

Style	list-style-type: type (disc, circle, square, decimal, lower-roman, upper-roman,...)
Position	list-style-position: type (outside, inside)
Image	list-style-image: url(runicon.png)

Layout (Chapter 03 - 01)

Display	display: type (block, table, inline, inline-block, run-in, inherit, list-item, none)
Horizontal Centering	body {margin-left: auto; margin-right: auto;}
Floating	float: position (none, left, right)
Clear	clear: position (left, right, both, none)

Positioning (Chapter 03 - 02)

Box Sizing	box-sizing: type (content-box, border-box, inherit)
Container Collapse	container::after {clear: both; content: ""; display: table;}
Positioning	position: absolute; (좌표 기반 배치)
Stacking	z-index: 10;
Overflow	overflow: auto;; overflow: scroll;; overflow: hidden;
Clipping	clip: rect(10px, 200px, 150px, 0px);

CSS Grid (Chapter 03 - 03)

Grid	display: type (grid, inline-grid)
Grid Columns	grid-template-columns: 1fr 2fr; (1:2 비율의 열 생성)
Grid Rows	grid-template-rows: 50px 100px 150px; (50px, 100px, 150px의 행 생성)
Grid Areas	grid-template-areas: "head head" "side main";
Grid Area	grid-area: area;
Repeat	grid-template-columns: 250px repeat (auto-fill, 100px);
Min Max	grid-template-columns: repeat(auto-fill, minmax(100px, 1fr));
Extend	grid-row: start/end; grid-column: start/end;

Outline (Chapter 03 - 04)

Width	outline-width: value (thin, medium, thick)
Color	outline-color: color;
Style	outline-style: style (solid, double, dotted, dashed, groove, inset, ridge, outset)

Graphics & Transforms (Chapter 04 - 01)

Figure Box	<figure><figcaption>Caption</figcaption></figure>
Text Shadow	text-shadow: color offsetX offsetY blur;
Box Shadow	box-shadow: 5px 5px 10px gray;

Background Images (Chapter 04 - 02)

Background Image	background-image: url(url);
Repeat	background-repeat: type (repeat, repeat-x, repeat-y, no-repeat, round, space)
Attachment	background-attachment: property (scroll, fixed, local)
Position	background-position: horizontal, vertical;
Clip	background-clip: type (content-box, padding-box, border-box)
Background	background: 5background: url(tb_back2.png) bottom right / 15% no-repeat content-box;

Border (Chapter 04 - 03)

Borders	border: 2px solid black;
Rounded Corners	border-radius: 15px 50px;
Border Image	border-image: url(file.png) 50 repeat;
Border Width	border-side-width: width;
Border Design	border-side-style: style (solid, dashed, dotted, double, outset, inset, groove, ridge, none)
Repeat	border-image: url(url) slice repeat fill; (stretch, repeat, space)

Graphics & Transforms (Chapter 04 - 04)

Gradients	background: linear-gradient(red, blue);
Opacity	opacity: 0.7;
Transforms	transform: rotate(30deg) scale(1.2) translate(20px, -100px);
3D Transformation	translate3d(offX, offY, offZ)
Perspective	perspective: 600px
Filters	filter: grayscale(1.0);, filter: sepia(0.8);
Image Maps	<area shape="rect" coords="x1,y1,x2,y2" href="url" />
